AUTHOR INDEX FOR VOLUME 36 411

consist of either just the italic number of the reference enclosed in parentheses and set on the text line or of the name (or names) of the author(s) followed by the italic number enclosed in parentheses. In the text citation, if there are more than two authors of a given reference use the surname of the first author followed by "*et al.*," "and co-workers," or "and associates." All authors' names should be included in the reference list itself.

For abbreviations of journal titles in the reference list please follow the forms used in *Chemical Abstracts Service Source Index*, 1985.

Pattern styling, punctuation, and capitalization after these examples, noting the particular style for journal articles, books, and edited (multi-author) books.

1. La Plante, R. J.; Thibert, R. J. *Microchem. J.*, 1985, **31**, 304–317.

2. Allen, R. C. Biochemiexcitation: Chemiluminescence and the study of biological oxygenation reactions. In *Chemical and Biological Generation of Excited States* (W. Adam and G. Alento, Eds.), pp. 61–121. Academic Press, New York, 1982.

3. Vanasse, G. A. *Spectrometric Techniques*, Vol. 3. Academic Press, New York, 1984.

The use of "personal communication" and "unpublished observations" as citations in the text should be avoided.

Proofs will be sent to the authors with reprint order forms. Fifty reprints of each article will be provided free of charge.
